"I Cry"

Visit "[I Cry](#)" on MotoLyrics.com

When peace cannot be found
and sleep won't visit me tonight
A restless mind that I can't tame
I walk the floor, I call your name
Finally silence, and the tears begin to fall
Chorus:
I cry and you're the one who hears me calling
I fall so easily, but you're there to catch me
Say the words that heal me
I'm safe with you
You touch my eyes
I can see
Oh the comfort that you bring
When nothing else can reach inside
Sympathetic friends are all around
Their soothing words fall to the ground
But in the silence I feel you here with me
(Chorus)
Say the words that heal me
I'm safe when I'm with you
You touch my eyes
I can see
I Cry and you're the one who hears me calling
I fall so easily, but you're there to catch me
