If love was a stone I could toss it away  
Never think twice, I'd be okay  
If love was an arrow I could pull back my bow  
Aim at the sky and let it go  
Chorus:  
But love is not a thing  
You don't take it off like a ring  
Just because you said goodbye  
That don't mean that love had died  
It's alive and doin' well in my heart  
If love was a book I could just put it down  
Don't need a romance around  
If love was a clock I could let it unwind  
Throw it out the window and watch the time fly  
(Chorus twice)  
Love is alive  
Love is alive  
and doing well in my heart  
Livin' in my heart
