Well, I've seen my chances come and go

And come back round again

But everytime they took me by surprise

There was a day I used to want

the things I did not have

But it's never better on the other side.

Well, I've never gone so far that I've

forgotten my way home

The best things always bring you back again

over and over

(chorus)

The Hands of Time

Go Round and Round

They don't slow down when you lose your way

At evry turn

The things you learn

You wear them proud like you wear your name

And as you go

On Down that road

Don't let the dust get in your eyes

It blows in the winds of change.

(end of chorus)

Hunger is no stranger

I've sat with him before

And everything I've done has not been good

As I've tried to make my stand

I've had to learn to fall

And maybe I've seen more than I should

But I've never gone so far that I've

Forgotten my way home

The best things always bring you back again

over and over

(sing chorus)

And I held on to my life

And I kept my dream alive

And the dream ain't over

Over and over

(sing chorus
