Freedom and time and tiktaktoe  
freedom of consciense is so slow  
choise you make and you throw it away  
all you need is here so go

Throw your dize and lies and how many times do I have  
to say  
Beating and cheating and defeating your love is not ok

Between the loneliness

Follow or go away  
would you live your life between the loneliness

Hurting and burning all what you got suffering grows  
destruction bad  
I gotta i wanna play the game of shadows makes me  
mad  
what the hell happens in your head now when you raise  
your fist again  
desbite of my lies and my bad times i despite all in the  
way

Don't throw it away  
follow me
