What do you do when you don't belong?
You're in your corner.
What do you say when you're always wrong?
Is it any wonder day and night, it's night and day?
Correct behavior; what you see is not your way.

Is it any wonder now?
Who could understand you?
Puttin' your record on.
Shut the back door.
It's just where you belong.

It's your own fantasy.
All for you and none for me.
Day and night, it's night and day.
Correct behavior; what you see is not your way.

Is it any wonder now?
Who could understand you?
Puttin' your record on.
Shut the back door.
It's just where you belong.

Mom and Dad, please.
You can never enter.
Shut the back door.
It's just where you belong.
