Without words lyrics
Should've ignored what I felt
What I felt deep in my heart
Coz now I don't even know
How to start letting you go
Oh yeah...
It hurts so bad I can't explain
I should've just ran away
Beside you I just can't stay
Coz I know that we won't be
More than friends it's clear to see
Oh yeah...
Coz in your heart is where she'll be
Without words you have shown me what love is
Without words your name is what my heart screams
It breaks me just to know that you really love her so
I'll try my best that it won't show
Without words you have made me much pain
Without words feels like I have drowned in the rain
And I was such a fool to believe that there was really
you and me
Without saying a word
I'll pretend that I don't hear
My heart whenever you're near
And though it doesn't subside
Whenever our worlds collide
I know...
Someday I'll learn to let you go
Without words you have shown me what love is
Without words your name is what my heart screams
It breaks me just to know that you really love her so
I'll try my best that it won't show
Without words you have made me much pain
Without words feels like I have drowned in the rain
And I was such a fool to believe that there was really
you and me
Without a word I really don't know why
To you I'd never learn to say goodbye
Without words you have shown me what love is
Without words your name is what my heart screams
It breaks me just to know that you really love her so

I'll try my best that it won't show
Without words you have shown me what love is
Without words your name is what my heart screams
It breaks me just to know that you really love her so
I'll try my best that it won't show
Should've ignored what I felt
What I felt deep in my heart
Coz now I don't even know
How to start letting you go
Oh yeah...
It hurts so bad I can't explain
