You taught me how to do  
All the things now you seem  
To be a part of me  
I know it's just part of the game  
To go back and start again  
Still it ain't so easy

It's inside me  
When, when you're ready to  
I'll come up to you  
I'll take you for a walk with me  
To a place that's not real  
Where we can heal  
All the things inside you and me, hmm, ho  
All the things inside you and me

It's hard to tell where this road will go  
No matter what they say  
Don't look below  
It's hard to tell where this road will go  
No matter what they say  
Don't look below  
It's hard to tell where this road will go  
No matter what they say  
Don't look below

What's goin' on?  
I don't know what is right or wrong  
What's goin' on?  
I don't know what is right or wrong  
What's goin' on?  
It's hard to tell where this  
I don't know what is right or wrong  
Road will go  
What's goin' on?  
No matter what they say  
Don't look below  
Don't look below  
Don't look below  
Don't look below
