### "Empty And Amused"

You had a good time  
You're smiling a happy smile  
The emptiness inside is gone now  
Like the sparkle in your eyes  
You feel happy and confused  
Empty and amused  
As if nothing could hurt you  
Nothing could hurt you

It's about time  
It's about time  
You said you know, but no you don't know  
You said you know, but no you don't know  
You said you know, but no you don't know  
You said you know, but no you don't know  
It's about time  
It's about time

Happy and confused  
Empty and amused  
Nothing can hurt you  
Nothing can hurt you  
No need to be sorry  
No need to feel guilty  
This is just a feeling  
Nothing but a feeling

Happy and amused  
Empty and confused  
As if nothing can hurt you  
Nothing can hurt you  
No need to be sorry  
No need to feel guilty  
This is just a feeling  
Nothing but a feeling
