When you're dressed in leather,  
I could be John Steed forever  
And even when, the sun is not here  
You come home (?) like a cup of coffee

Chorus:

And, you, you don't know what you do  
But you're always doing well  
And even if I've got your picture  
In my left shoe,  
That doesn't help me

And when the sun is out,  
I come home white as snow  
And when I'm dressed in leather,  
I look like the bloke from the Village People

Chorus:

And you, you don't know what to do  
But you're always doing well...  
And even if I've got your picture  
In my left shoe,  
That doesn't help  
No, that doesn't help me that much  
That doesn't help me at all
