### "Matter Of Times"

Visit "[Matter Of Times](#)" on [MotoLyrics.com](http://MotoLyrics.com)

My life is a mess  
just like everybody elses  
I guess  
not enough time  
and too much stress  
I'm neglecting you

I'm not saying  
I don't worry at all  
There are times and moments  
to cure my soul  
sit back and relax  
it's gonna be alright

I know we can  
sort this out  
It's just a matter of time  
baby can't you see  
the look on my face  
won't you give me a try

I know we can  
work it out  
It's just a matter of time  
baby won't you say  
you'll stay and  
kiss me one more time

Life is a test  
it can be tough but  
I'm doing my best  
it takes some time  
and alot of stress  
but I'm finding my way

I'm not saying  
you learn all along  
There is always someone  
to tell you it's wrong  
but I'm talking too much  
get back to real life

I know we can  
sort this out  
It's just a matter of time  
baby can't you see  
the look on my face  
won't you give me a try

I know we can  
work it out  
It's just a matter of time  
baby won't you say  
you'll stay and  
kiss me one more time

Say the word  
and I'll be there  
(so don't you worry now)

just say the word  
and I'll be there  
(so don't you worry now) (x3)

I'm not saying  
I don't worry at all  
There are times and moments  
to cure my soul  
just sit back and relax  
it's gonna be alright

I know we can  
sort this out  
It's just a matter of time  
baby can't you see  
the look on my face  
won't you give me a try

I know we can  
work it out  
It's just a matter of time  
baby won't you say  
you'll stay and  
kiss me one more time

just say the word woo  
and I'll be there  
(so don't you worry now) (x4)
