

Ethiopians, The "Come On Now"

Come on now, come on
Watch the things you're doing
Come on now, come on
Watch the things you're saying
Come on now, come on
Watch the place you're going

Time will run out on you
And there is nothing else that you can do
You will want to find someplace to hide
But let me tell you my friend, this you won't find
No, no, just let it be me

Come on now, come on
Time to stop and think a while
Come on now, come on
Time to stop and change your style

Come on now, come on
Time to change your style
Come on now, come on
Stop and think a while
Come on now, come on
Too long I've been waiting
