"Without You"

Visit "[Without You](#)" on MotoLyrics.com

Well, I know
Those you don't understand you criticize
And I know
I can never mean anything within your eyes

Stop acting like that
Everybody lives to rearrange
You've got to understand
Nothing can ever stay the same
Without my love, what would it be without you ?

Well, I know
If I don't understand you'll sympathize
And I know
If I've never seen everything you'll realize

While I'm acting like that
Everybody seems to rearrange
I've got to understand
Nothing can ever stay the same
What would it be without you ?
Without my love, without you

Stop acting like that
Picking on my needs you turn away
I've got to understand
Nothing can ever stay the same
Without my love
What would it be without you ?
The story ends
