The future, hip-hop king

Forever, the Canibus... (The Funkmaster Flex is coming!)

[Canibus]

Yo, yo

For all you niggaz sayin that my shit is sick, just
imagine

the ninety percent of my brain that I ain't even used yet

Take a deep breath, quick, suck in as much air

as my lungs will permit -- then I start to kick that shit

I been gettin busy before the planets started to turn

Before the bees, the birds, and Adam and Eve occurred

Prior to all creation, in other words

When the female egg will merge with the man's sperm

I stand firm, my words burn through your exterior

The eat away at your materia, I'm superior

While you only pretend to be, I can double my density

from three-sixty degrees to seven-twenty instantly

Six, multiplied by five by four by three by two

then one, go head and calculate the sum

The time has cometh, I was summoned to punish
Motherfuckers with mouths to run it ? with rubbish
When I come through, niggaz stand stiller than statues
Cause if I have to, I'll battle your whole rap crew
Then I'll attack you with words that's absurd
and rip your fuckin skin off just to get on your nerves
