See, I don't understand this babe  
Why you got me going do this  
We're supposed to love each other, right?  
What is this? I don't like what the hell is going on  
here  
We shouldn't be going through this  
Not like this!

I can see it in her face  
that this relationship ain't open for debate  
You know we'd been having problems, girl  
What makes it hard to leave is that you steal my world  
Hey, you'll be up in my face like a man  
And I've been tryna walk away from you like a man  
Is almost like you want me to go  
And I'm about to step in you like baby please go!  
Please go!

Bridge:

Tell me why we're arguing, stop it with that  
nonsense  
Remember how we used to be, always gave you  
compliments  
I think we came too far, to be on different roads  
And I'm just trying to make it  
Trying to make it home!

Chorus: (x2)

How do we fix it?  
Where is the answer?  
If we're not enemies, why do we shoot first?  
Do you want this to be over?  
I don't want this to be over!

Laying in his bed, no sleep  
Thinking about that sh\*t you said  
Girl, we could be making love right now  
Instead you wish I was your ex right now!  
Tell me who gon' do for you everything that I did?  
Trying to make it work when it didn't make sense  
Is not about who's wrong or right  
It's do you want me in or out your life?

Tell me, girl!

Bridge:

Tell me why weâ€™re arguing, stop it with that  
nonsense

Remember how we used to be, always gave you  
compliments

I think we came too far, to be on different roads

And Iâ€™m just trying to make it

Trying to make it home!

Chorus: (x2)

How do we fix it?

Where is the answer?

If weâ€™re not enemies, why do we shoot first?

Do you want this to be over?

I donâ€™t want this to be over!

What am I to do now?

What am I to do now?

Chorus: (x2)

How do we fix it?

Where is the answer?

If weâ€™re not enemies, why do we shoot first?

Do you want this to be over?

I donâ€™t want this to be over!
