shed too many tears
i don't wanna cry no more
still standing here
don't know what i was running for
it's clear to see the ones who love me
and the ones who don't
still looking for the one who will say forever
because you won't

over and over i try
but you refuse, tell me why
how long can love be denied
that's why i had to let you go
look how long you made me wait
your words, second from too late
had about all i can take
now i'm letting you know
this love affair is over (oh oh)
and now i'm getting stronger (oh oh)
and you thought i wouldn't make it through (oh oh)
so i did what i had to do

i'm moving on
girl i'm moving on
all my pain is gone
guess i'm moving on
i'm better off on my own
guess i'm moving on
now that chance is gone
you'll see you were wrong
guess i'm moving on

one day you're gone
i wake up wondering what could've been (oh)
and realize how much i love her
and a best friend (oh)
mama said look out for the ones who gamble on a
short thing
they'll throw away all your love
no matter how much you bring
this love affair is over (oh oh)

and now i'm getting stronger (oh oh)
and you thought i wouldn't make it through (oh oh)
so i did what i had to do

i'm moving on
girl i'm moving on
all my pain is gone
guess i'm moving on
i'm better off on my own
guess i'm moving on
now that chance is gone
you'll see you were wrong
guess i'm moving on

ooh i know that one day
i will have the love i need and my whole life to change
when you have something real
you never let it go
cos someone's gonna see what you are afraid to hold
(oh oh whoa)
this love affair is over (oh oh)
and now i'm getting stronger (didn't see me getting
stronger oh oh)
and you thought i wouldn't make it through (oh oh
baby)
so i did what i had to do (did what i had to do)

i'm moving on
girl i'm moving on (moving on)
all my pain is gone
guess i'm moving on
i'm better off on my own (i'm better off)
guess i'm moving on (on my own)
now that chance is gone
you'll see you were wrong (you were wrong)
guess i'm moving on

i'm moving on (yeah)
guess i'm moving on
moving on without you
i'm moving on (oh oh oh oh)
ooh i'm moving on..
