"Let's Kiss And Make Up"

Make you sigh
or to lie.
It's most immoral
for us to quarrel.
Why can we
both agree?
Don't you know Ben Franklin
wrote about this thing at length?
On the proposition that
in union there is strength.
Why raise a storm up
if we'll just warm up?
We'll be much stronger
and live much longer.
Let's kiss and make up,
Come on, let's wake up
For I need you
and you need me.
Let's kiss and make up,
No use to break up
when we can work in harmony.

I'll give you your way

You'll give me my way

and out the doorway

our cares will fly away.

If we'd be happy

the way is clear

Let's kiss and makeup

no use to break up

We need each other, dear.
