[Fanny:]

I loved the man

Truly I did

When he would touch me I act like a love-hungry kid

Isn't this better

Somebody nice somebody new

Someone who lets me react as I normally do

Isn't this better

Better

Passion is fine but passion burns fast

Passions design seems never to last

Better a match better a blend

Who needs a lover I need a friend

Now I am calm save and serene

Heartache and hurt are no longer a part of the scene

Isn't this better

The way it should be

Better for him

And also much better for me

Isn't this better

Better

Passion is fine but passion burns fast

Passions design seems never to last

Better a match better a blend

Who needs a lover I need a friend

Now I am clam save and serene

Heartache and hurt are no longer a part of the scene

Isn't this better

The way it should be

Better for him

Much better for him

And also much better for me
