"Ready To Promise"

I know I can't decide how long I should hide
From all the reasons I still believe
There must be more to this than I'll ever know
It's got a hold on me now

With only a promise
And a kiss to the wind
With all that years just fade away

Ready to promise
I lift my spirit, lift my mind to the one
I'm not confused
I've finally found what's mine

Tomorrow's visions shining down on me
Outstretched the hand that holds the key
Golden horizons call my name tonight
Embraced by those who share the fight

Just carry on to forever be free
These dreams are real and won't
fade away

Ready to promise
I lift my spirit, lift my mind to the one
I'm not confused
I've finally found what's mine
Once more I promise
I give my nights to the one
I'm not confused
I've finally found what's mine

I raise my hands I thought I was
Down until I got another chance
The light at the end of the tunnel
Is calling me
calling me
