1.Strophe

I can see the lights before

I go to the door anymore

I say you are the one

But she is already wrong

Falling down

2.Strophe

You are the one I loved anymore

You are the one I loved anymore

You are the one I loved anymore

You are the one forever and ever

We aren't together baby

3.Strophe

Yesterday I was an evil rock machine

See the hate note in me (not in you just in me)

So you are my fuckin' advice

Do n't sit on your mosh pit

You hurt me yesterday
