"Fuel My Fire"

Visit "[Fuel My Fire](#)" on MotoLyrics.com

Get a match, some gasoline,
Honey, keep your motor clean,
Fuel my fire, tell no lies,
My flame has got you hypnotized, yeah

Honey, you get my motor running,
When you're behind the wheel.
Baby, you get my engine running,
When you make my tires squeal.

Take a look down under my hood,
Some grease, you know, might do me good.
Have a drink before I start,
Then drive me 'round, but not too far.

Honey, you get my motor running,
When you're behind the wheel.
Baby, you get my engine running,
When you make my tires squeal.
Yeah!

Must it end,
I need some grease!
Take a rest in my backseat,
Come on, baby, fill my need,
Ride on faster, love that speed!

Let's go!
Honey, you get my motor running,
When you're behind the wheel.
Baby, you get my engine running,
When you make my tires squeal.
Yeah!
