think you've got it all worked out
walk on through w your head held high
but please don't turn your back on me
sick and obsessed...don't have a heart
What you mean to be
a dream to me I'll stay asleep
You can't stay away
even though you say
I waste your time
Stay up late to see the sun
wake up next to anyone
but please don't turn your back on me
Soon you'll wake up all alone.
what you mean to be a dream to me
I'll stay asleep
You can't stay away even though you say I waste your
time
