I never me a woman
That make me feel like you do
There's something 'bout you baby
That makes me wanna be with you

I never thought I'd ever feel this way
Your love is warm, it takes me to another place

You bring me light, you take away my pain
I hold you tight, and baby we can fly away

Cause you're an angel, a blessing, you're sent from
above
I want you, I need you, I pray for your love

I never me a woman
That make me feel like you do
There's something 'bout you baby
That makes me wanna be with you

Take all I have baby
It may not be much
But I can love you
With every single touch

Tu eres un angel del cielo, una bendicion
Te quiero, te adoro, rezo por tu amor

An angel, a blessing, you're sent from above
I want you, I need you, I pray for your love

I never me a woman
That make me feel like you do (Feels so good)
There's something 'bout you baby (hay algo en ti
mujer)
That makes me wanna be with you (oooh baby)

Vamonos!!!!
