off, on our own
and everything i own is
in the back
and we're heading to minnesota
for just a night

windows down
we breathe the fumes of summer air
without beds we choose the pavement over grass
interstate
in a state we've never known
and will have passed before we even know its name

so farewell, oh farewell
we burn slow, we burn slow
so farewell to farewell
we burn slow, we burn slow
we hit the beaches when it's hot
jackknife fire in the lot
i can't imagine my life before this

windows down
we breathe the fumes of summer air
without beds we choose the pavement over grass
interstate
in a state we've never known
and will have passed before we even know its name

we smoke the smokes just for the cancer
and stay up late just to dance erratically
and celebrate these times away
we smoke the smokes just for the cancer!

windows down
we breathe the fumes of summer air
without beds we choose the pavement over grass
interstate
in a state we've never known
and will have passed before we even know its name

green light says go

our guiding lights hang from a pole
green light says go
watch them pass to pass the time
green light says go
road signs will lead us on
