Holding on take my hand
Just take my hand
Oh to feel real

Holding on, walk with me
Just walk with me
Oh to feel real

Shadows fall all around me
Trust in me please
Just trust in me
Oh to feel real

What's in a name?
It is more than we will ever know
Just look at our eyes
Can you tell what's on our minds?
If only the face could tell a story

Holding on Take my hand
Please take my hand
Oh to feel real

Quiet it seems, show your face
Please, show your face
Oh to feel real

What's in a name?
It is more than we will ever know
Just look at our eyes
Can you tell what's on our minds if only the face could
tell a story
