"With you"

There was hope, there was faith
There was truth but I just couldn't get it
Now there's love in my life
Can't let it go, I just won't let it
Change has played its part
And it's healed my wounded heart

All I wanna do and all I wanna be
All I wanna feel is something real
I want to believe that everything I do
From here on out will be with you
It's gonna be with you

Here with you I feel safe and I know this is just the beginning
For so long I was lost, now it feels I'm finally winning
I wouldn't mind
I could love you for the rest of my life

All I wanna do and all I wanna be
All I wanna feel is something real
I want to believe that everything I do
From here on out will be with you
It's gonna be with you

Oh, it's gonna be with you
I wouldn't mind,
I could love you for the rest of my life
'Cause

All I wanna do and all I wanna be
All I wanna feel is something real
I want to believe that everything I do
From here on out will be with you
It's gonna be with you

It's gonna be with you

Now that I found you
I'm never gonna let you go
I'm never gonna let you go away
