To me she was
The picture of perfection
Scale of one-to-ten
A sure-fire eleven
Might as well say an angel
Straight from heaven
First thing she said to me, was
Kisses won't cut it

I asked her what she meant
And she said lately
All I can think about
Is havin' babies
My clock is tickin' loud
And I don't mean maybe
When it comes to me
Kisses won't cut it

[Chorus]
She said kisses just won't cut it
I want the whole shebang
I want a ring on my finger
A great big wedding
A brand new baby buggy
And a mini-van
Baby, now kisses just won't cut it
I don't need no casual fling
I need a good man
To take care of this good southern girl
If you wanna get to know me
Kisses won't cut it

Back against the wall
My heart was racin'
Then she kissed me on the lips
It was breathtakin'
She said I can see y'all
Ain't accustomed to speed datin'
But I need your answer now, 'cause
Kisses won't cut it

[Chorus]

She said kisses just won't cut it
I want the whole shebang
I want a ring on my finger
A great big wedding
A brand new baby buggy
And a mini-van
Baby, now kisses just won't cut it
I don't need no casual fling
I need a good man
To take care of this good southern girl
If you wanna get to know me
Kisses won't cut it

[Bridge]

Then she said honey you'd best decide
Or I'll be leavin' in a shot
If your in, then say you're in
And let's go tie the knot

[Chorus]

Baby, now kisses just won't cut it
I don't need no casual fling
I need a good man
To take care of this good southern girl
If you wanna get to know me
Kisses won't cut it

Yeah, she said kisses just won't cut it
I don't need no casual fling
I need a good man
To take care of this good southern girl
If you wanna get to know me
Kisses won't cut it
If you wanna get to know me
Kisses won't cut it
