If God gave me one chance
Before I reach the gate
To right a few wrongs that I've done
And set some things straight
Girl I'd want you to know
That as far as love goes
You're the best that my heart's ever seen
I'd right what went wrong between us
And wipe that slate clean

If I had just one chance
To hold you once again
I'd wear my heart on my sleeve
And lay you down out here in the rain
Then I would kiss you
Like I've never kissed you
And we'd love all the hurt away
I'd give you every kindness you deserve
Day after day

What a fool, what a fool I've been
I'd give anything, just to have you back again

If I had just one chance
To turn back time
I'd go back to the night when
When I should've laid my heart out on the line
Straight back to the night
When we had that big fight
And you said you couldn't love me no more
I'd surrender my pride and I'd beg you
Not to walk out that door
I'd surrender my pride and I'd beg you
Not to walk out that door
