Ohhhh alright baby

[1st Verse]

There's something special about you
Could it be a spell you put on me that got me lovin' you
In the middle of the night baby I wake up to, to a cold
sweat (yeah)
Cause I'm thinking 'bout you
It seems to me like it's make believe
A dream girl like you wanting to be with me
So I pinched myself, to see if you'd fade away
Never went away, so I said to myself

[Chorus]

If I would've known then what I know now
I would've saved my love for you (only you)
But since I didn't know then what I know now
There's one thing that I know I'm glad I saved the best
for last
Ohhhh ohhh oh yeah, yeah, yeah, yeah, yeah

[2nd Verse]

I always think about me and you
And shed a tear for every year me and you should
have been
I'm gonna always tell you how I feel
Cause mamma told me never let your silence speak for
you
It seems to me like it's make believe
A dream girl like you wanting to be with me
So I pinched myself, to see if you'd fade away
Never went away, so I said to myself

[Chorus]

If I would've known then (ohh ohh) what I know now

I would've saved my love for you, only you (only you)
But since I didn't know then (know then) what I know
now
There's one thing that I know I'm glad I saved the best
for last

[Bridge]

All the pain, I've experienced
Bad relationships could've been avoided
If I only knew that you were out there I would've saved
all of my love for you
If I only knew

[Chorus]

If I would've known then what I know now
I would've saved my love for you (all my love), only you
(only you)
But since I didn't know then (know then) what I know
now
There's one thing that I know I'm glad I saved the best
for last
If I would've known then what I know now
I would've saved my love for you, only you (only you)
But since I didn't know then (know then) what I know
now
There's one thing that I know I'm glad I saved the best
for last
I'm glad saved the best for last I'm glad I saved the
best for last
I'm glad I saved the best for last So glad I saved the
best for last
You're the best
You're different from all the rest
