Silent in my sanity
I live safe inside my cell
In the darkness that surrounds me
I see my own special Hell
Comfort in my suffering
Feeling warm inside this pain
Before I was coming down on me
I come on down again

I let you win, you come on to me
And you're so f***ing brave
A chewed out lighted candle
Fell in my cool and empty cave
Somewhere in your worthy
Tell you this is what the people need
Doing all that s**t on me
And leave me here to bleed

Cradle falls, unholy walls...

(Repeat first 8 lines)

You woke me out of my secret grave
You let your pretty world in

Now you're in my world
Did you dream it'd be so small
My little box was perfect
'Til you destroyed it all
My sanctity of sorrow gone
Forever in its place
The sacred sweet of you
Is all that's left to taste

Feeling claustrophobic
Now my world is closing in
Subtle retribution
Where I am and where I've been
I'll take you to a place
You never knew could be
Curled up, in my little box.
