Go to sleep, my darling child
Then dream awhile, the sandman comes
Oh, fold your hands, no need to fear
Just say this prayer, the day is done

Oh, oh Lord, keep us in Your arms
Protect from all harm, near us please stay
And dear Lord, please give us new hearts
Grant a brand new start, bless us we pray

Lullaby and goodnight

Lord, keep us in Your arms
Protect from all harm, near us please stay
And dear Lord, please give us new hearts
Grant a brand new start, bless us we pray

Hey, hey little baby
Little baby child, go to sleep
'Cause the Lord is near
