Sweet Maria

Remember when we were beginning
You could go back to the start
Everyone's the devil's partner
When there's envy in their hearts

Don't let them sway you
Sweet Maria
Don't let it get to you
Sweet Maria

And I could guess your second guessing
Hasn't got you anywhere
Well we've got a lot to do now
Why then are you standing there?

Don't let it phase you
Sweet Maria
Don't let it get to you
Sweet Maria

You have got so much to offer
More than you have settled for
There's a side that you have silenced
Why'd you sell yourself so short?

Don't let them stop you
Sweet Maria
Don't let get to you
Sweet Maria
