When you're outside, all you want is in
And when you're in, all you want is out
I hope you'll find some piece of mind

When you're alone and you long for friends
And then you're with friends
You want to be by yourself
I hope you'll find some piece of mine

Be in, be out, be in
I hope you find some piece of mind

When you're outside, all you want is in
And when you're in, all you want is out
I hope you'll find some piece of mind

Be in, be out, be in
