All I ever wanted is in front of me  
Who knew I was in for such treat  
This is far beyond what I imagined  
Not even as I fantasized

And I do  
Yes I do 'bout you  
As far as I can see  
There's only you for me, oh only you

Honey, do you want to take a chance on me  
Walk up and say we do (say we do)  
No one ever knew me the way you do  
You really knocked me off my feet

It's true  
Baby it's true  
As far as I can see  
There's only you for me, and oh only you

Only you  
Oh only you

All I ever wanted  
All I ever wanted  
All I ever wanted  
All I ever want
