She came from the north had traveled the day  
Said she had something of value to say  
thats why she came my way  
Her words came out sharp and gave me a cut  
She told me to touch it whenever I lost my way  
To keep me sane  
Sunshine lady came through my door  
Just like Dion sings in a song  
She looks like someone he had known  
He had known, he had known,  
I cried me a river and hoped that he would  
Come with a boat so that we could set sail  
and leave for faraway  
Sunshine lady came through my door  
Just like Dion sings in his song  
She looks like someone he had known  
He had known, he had known
