I can remember, parking lot nights
What did they mean to you?
Wrapping my arms around your body
Protecting and holding you
And holding you

Looking inside of my heart
It was such a big surprise
We've gone and done it again
Does he love you like i can?
Like i can

Maybe it wasn't good enough, but I gave you all i could
Will he stay up late if you cant sleep
Cause baby i would (i would)
And baby i could (i could)

And your the grim reaper standing down, and letting
me feel this way

With your sweet whispers that never told me you need
me this way (this way)
Staying this way (this way)

If you told me you were happy
If you told me that you miss me
Is it something that i cant see
It's something i cant be
Something i cant be

(If you told me)
(IF YOU TOLD ME)

Maybe it wasn't good enough, but I gave you all i could
Would he stay up late if you cant sleep
Cause baby i would (i would)
(Good Enough, Good Enough, Etc. Etc.)
