[Talking: (From the demo version of this song)]

A beautiful girl can make you dizzy
Like you've been drinking jack and coke all morning
She can make u feel high
Full a single greatest commodity known to man
Promise promise of a better day
Promise of a greater hope
Promise of a new tomorrow
This particular aura can be found in the gait of a
beautiful girl
In her smile & in her soul & the way she makes every
rotten little thing about life seem like its gonna be ok...

September never stays this cold
where I come from
And you know
Iâ€™m not one for complaining,
But I love the way youâ€™d roll
excuses off the tip of your tongue
as I slowly fall apart (slowly, quietly, slowly)
fall apart

This wonâ€™t mean a thing come tomorrow
and thatâ€™s exactly how Iâ€™ll make it seem
Cause I'm still not sleeping,
thinking Iâ€™ve crawled home from worse than this

So please, please (please)
Iâ€™m running out of sympathy (I'm running out of
sympathy!)
and I never said Iâ€™d take this
I never said I'd take this lying down

She says
"come on, come on, letâ€™s just get this over withâ€™"
She says
"come on, come on, letâ€™s just get this over withâ€™"
(I never said Iâ€™d take this lying down, let's just get this
over with,

and I've crawled home from worse than this)
She says

"come on, come on, let's just get this over with"
She says
"come on, come on.."

You always come close but this never comes easy,
I still know everything
You always come close but you never come easy,
I still know everything
This always comes close but you never come easy,
I still know everything
You always come so close...
I still know everything, I still know everything, I still
know...

You always come close but this never comes easy
You always come close but you never come easy
You always come... you come in close

I never said I'd take this lying down
I never said I'd take this lying down
I never said I'd take this lying down
but I've crawled home from worse than this

If it's not keeping you up nights
then what's the point
then what's the point
then what's the point
then what's the point

I'm in your room
now is this turning you on
am I turning you on?

I'm in your room
are you turned on?

I'm on the corner of your bed,
I'm thinking maybe,
are you turned on,
are you turned on?
