

## **Taking Back Sunday "New American Classic"**

Visit "[New American Classic](#)" on MotoLyrics.com

"We've got to get better," I said, "It's all in your head."  
We could live through these letters or forget it all  
together  
See the months they don't matter it's the days I can't  
take  
When the hours move to minutes and I'm seconds  
away

Just ask the question come untie the knot  
Say you won't care, say you won't care  
Retrace the steps as if we forgot  
Say you won't care, say you won't care  
Try to avoid it but there's not a doubt  
And there's one thing I can do nothing about

When all that we need is just a reaction  
It's too much to ask for when there's no attraction  
anymore  
If chasing our dreams is just a distraction  
I want to remember when I know that I can't go back

Just ask the question come untie the knot

Say you won't care, say you won't care  
Retrace the steps as if we forgot  
Say you won't care, say you won't care  
Try to avoid it (try to avoid it) but there's not a doubt  
There's one thing I can do nothing  
There's one thing I can do nothing  
There's one thing I can do nothing about.

Just ask the question (just ask the question) come untie  
the knot  
Say you won't care, say you won't care  
Retrace the steps (retrace the steps) as if we forgot  
Say you won't care, say you won't care  
Try to avoid it (try to avoid it) but there's not a doubt  
And there's one thing I can do nothing  
There's one thing I can do nothing  
There's one thing I can do nothing about.
