Yeah...

I played dead immersed in that
Techni-colour, kind of
Black and white type
Counting one, two

Seven through the roof
If my lady only knew
How high, how high
I am, I am tonight

I've cracked open the safe
Myself now
45, 22
June until September
Three months 'til December

The summer
Is over
And I doubt (I doubt), I'll be seeing you around
I'll be seeing you around

Cos I ain't working for you anymore
No I ain't working for you anymore

So go prove to the world
Well you've already proved
That you just couldn't do on your own

Let's have a talk about the good times
Oh you were always giving in
Let's have a talk about the good times
Oh you were only giving in

The summer
Is over

And I doubt (I doubt), I'll be seeing you around
I'll be seeing you around

The summer

Is over
And I doubt (I doubt), I'll be seeing you around
I'll be seeing you around

Let's have a talk about the good times
Oh you were always giving in
Let's have a talk about the good times
Oh you were only giving in

To

The summer
Is over
And I doubt (I doubt), I'll be seeing you around
I'll be seeing you around

The summer
Is over
And I doubt (I doubt), I'll be seeing you around
I'll be seeing you around

The summer
Is over
And I doubt (I doubt), I'll be seeing you around
I'll be seeing you around

The summer
Is over
And I doubt (I doubt), I'll be seeing you around
I'll be seeing you around
