"follow the format" by t.b.s

make a big scene  
make this glass house my coffin, you  
missed the big picture  
but it's the words that you're coughing up  
out on your sleeve  
so forge my sins here in song  
well i'm telling you now  
what you've known all along

and it's tired, so true, more  
subtle than you, there's  
a lull in the stereo  
it's calling for you (calling for you)  
it's calling for you

well i'm a slave to my vices (it's true)  
they've all been (re)  
renamed as your crutch  
so drag my name and my face through the mud  
you're better at confronting me  
(you're better at confronting me)  
show us just how vicious you can be  
do what you came here to do  
(do what you came here to do)

trigger, finger  
gets you pointed in  
the right direction,  
my new-found discretion

it's not a lie if you believe it  
it's no mistake if it's always repeated  
it's not a lie if you believe it  
it's no mistake if it's always repeated  
it's not a lie if you believe it  
it's no mistake if it's always repeated  
(shall we call it quits or just wait)  
it's not a lie if you believe it  
(even, even if my last name rhymes with)  
it's no mistake if it's always repeated

(your rescue of hear say, do not say you know)  
it's not a lie if you believe it  
(call me out, it's such a lie)  
it's no mistake if it's always repeated

but i don't need to hear it from you  
what's another word for?  
i don't need to hear it from you  
what's another word for?  
i don't need to hear it from you  
what's another word for?  
don't need to hear it from you

It gets easier with doses of time  
(easier with dull sense of time)  
easier with doses of time  
(easier with dull sense of time)  
easier with doses of time  
(easier with dull sense of time)  
easier with doses of time  
show us just how vicious you can be to me
