Oh, when the firing finally stops
And our weapons start to drop
Will we like what we see?
Will we like what we see?
Will I be completely confident
That it was worth the time I spent?
Will I like what I see?
Will I like what I see?
I still have all these questions
(You're all talk; no follow through)
When I ask you for an answer
That's when you say you'll have one soon.
Who are you to think, to think you're worth the wait?
(Well are you worth the wait?)
Are you worth wait? Is it worth it?
Who are you to think, to think you're worth the wait?
(Are you worth the wait?)
Are you worth wait? Is it worth it?
Is it? Is it?
Is it? Is it worth it?
Is it? Is it?
Is it?
Is it when the smoke does finally clear
We find our problems disappear?
Will we like what we see?
Will we like what we see?
When I assess the damage done
Would I be smart enough to run
If I don't like what I see?
I don't like what I see
I still have all these questions
(You're all talk; no follow through)
When I ask you for an answer
That's when you say you'll have one soon.
Who are you to think, to think you're worth the wait?
(Well are you worth the wait?)
Are you worth wait? Is it worth it?
Who are you to think, to think you're worth the wait?
(Are you worth the wait?)
Are you worth wait? Is it worth it?
Just say you like what you see
Say you like what you see

Don't you like what you see?
Is it? Is it?
Is it? Is it worth it?
Is it? Is it?
Is it? Is it worth i?
Well are you worth the wait?
Are you worth the wait?
Who are you to think, to think you're worth the wait?
(Well are you worth the wait?)
Are you worth wait? Is it worth it?
Yeah, who are you to think, to think you're worth the
wait?
(Are you worth the wait?)
Are you worth wait? Is it worth it?
Is it? Is it?
Is it? Is it worth it?
Is it? Is it?
Is it? Is it worth i?
Are you worth the wait?
Are you worth the wait?
Is it worth it?
The wait:
Is it worth it?
The wait:
Is it worth it?
Oh!
Is it? Is it?
Is it? Is it worth it?
Are you worth the wait?
Are you worth the wait?
