Where do you go  
When you turn away  
How do i know  
That you're hear to stay

Why do i believe  
The promises you make  
Because they sound so sincere  
Even as they break

And you never so far, as when you're right beside of  
me  
No farther then my fingertips, but further than can be  
I close my eyes to closeyou out, you're all I can see  
I never wanted more to be anyone else but me

So close your eyes  
You gotta close your eyes  
Won't you set me free  
After all your lies  
When you close your eyes  
Do you, do you think of me

Where can I run from my memories  
When I close my eyes, and you're starting back at me  
Screaming in my sleeps and writhing on the floor

Whispering I cant love you anymore

So close your eyes  
You gotta close your eyes  
Won't you set me free  
After all your lies  
When you close your eyes  
Do you, do you think of me

Just in case you think I ever needed you  
I wanted more for us, to try and see it through  
Just one more chance to be  
Just one more glance and I'll be gone  
God help me

So close your eyes  
You gotta close your eyes  
Won't you set me free  
After all your lies  
When you close your eyes  
Do you, do you think of me

So close your eyes  
You gotta close your eyes  
Won't you set me free
