Scream like I scream

I taste your lips on every kiss
Dig my fingertips into my mind
Why do you still hide, in every lie
Behind my eyes my eyes so blind

I want you to see
I want you to

Scream like I scream when I cry for you
Endlessly I bleed all my dreams just to die for you

I scrape my skin on every breath
Without and within I breathe your scent
I suffocate myself but I still drown in you

I want you to

Scream like I scream when I cry for you
Endlessly I bleed all my dreams just to die for you

Scream like I scream when I cry for you, Endlessly
Undream all my dreams just do die for you

I want you to

Scream like I scream when I cry for you,
Endlessly I bleed all my dreams just to die for you

Scream like I scream when I cry for you,
Endlessly I bleed all my dreams just to die for you

I want you to
