Shhhh, Hush now don't you scream
With what little breath that your lungs have left, now
bleed just for me

Cause you should be
Just like me
Broken like I used to be
Now that you're gone there's nothing to save me

I can't believe I let you leave
Let you walk right out on me
I can't believe I let you leave me lonely
Who's gonna save me (now)

Smile so I can see
Your skin is so pale and your lips are so frail they bleed
Just for me

Cause you should be
Just like me

Broken like I used to be
Now that you're gone there's nothing to save me

I can't believe I let you leave
Let you walk right out on me
I can't believe I let you leave me lonely
Who's gonna save me (now)

I can't believe I let you leave
Let you walk right out on on me
I can't believe I let you leave me lonely
Who's gonna save me (now) [2x]

[Solo]

I can't believe I let you leave
Let you walk right out on on me
I can't believe I let you leave me lonely
Who's gonna save me (now?)
