### VERSE 1

there is no hope in this  
trap  
where no key will fit  
the only way to stop the gears from turning  
is to start everything burning

### CHORUS 1

all the weak work to  
feed the strong  
while machines tell us where we belong  
while the world is lost in its decay  
i will not wait for a better day

### INTERLUDE 1

kill it  
from the inside  
we can kill it  
from the inside  
kill it  
from the inside  
we can kill it from the inside

### VERSE 2

We cant  
move a mountain  
or stop the ever rising tides  
we are a part  
of the system  
we can kill it from the inside

### INTERLUDE 2

kill it  
from the inside  
we can kill it  
from the inside

kill it  
from the inside  
we can kill it  
from the inside  
kill it  
kill it  
kill it  
from the inside  
kill it  
kill it  
we can kill it  
from the inside

#### CHORUS 2

all the weak work to  
feed the strong  
while machines tell us where we belong  
while the world is lost in its decay  
i will not wait for a better day.
