VERSE 1

this garden grows up around me
its got me by the roots
its thorns cause the bleeding
its poison hides the truth

CHORUS 1

im lost in the darkness
if i even ever knew my way
i think its got me now
i serve in this garden of pain

VERSE 2

all i crave is an ending
release without remorse
my heart keeps pumping venom
with its deadly force

im blind in the garden
sightless in the trees
i lost my soul to this
sickness without disease

CHORUS 2

im lost in the darkness
if i even ever knew my way
i think its got me now
i serve in this garden of pain.
