"Take Me"

Visit ["Take Me"](#) on MotoLyrics.com

Riding on a boat of time into the future
Waiting for the day to go under
Inside the great big ocean we look for the origin
We're riding, riding and we wonder
Science and progress can't open the chain
At any day we've got to get out again
We're looking for the reason the big wheel's spinning
around --
out anchestries found

Take me down -- to where the water flows
Take me up -- to where the big wind blows and
Make me melt inside of you
Take me out -- come on and take me into

We're passengers of time succeeding our fathers
We're standing in the queue and we rack
our brains over problems, riddles and solutions
At any day we reach the track
Science and progress can't open the chain
At any day we've got to get out again
All we know is that we don't really know
nothing at all -- face to the wall

Take me down -- to where the water flows
Take me up -- to where the big wind blows and
Make me melt inside of you
Take me out -- come on and take me into
