You said it in a strange kind, I don't forget the day
Your smile is not the same now, You've drawn your
hands away
I don't begrudge it to you, you've found another place
Another place is good too, but I can't look inside your
face
Inside your face -- now you get away

And now we shunt our train on to a siding
I see you wave your hand and disappear
You said come on and fly with me,
Fly and then we'll dive into an endless sea
And now you fly again, I couldn't fly like you
And now I'm losing you

Pathos -- how the eyes gape, I've got blood in my hands
Thoughts about the promise and all the tears that we
have shed
Don't you let them use you, be cautious when you dive
into the
world around you you've broken all the ties
All the ties -- now you get away

And now we shunt our train on to a siding
I see you wave your hand and disappear
You said come on and fly with me,
Fly and then we'll dive into an endless sea
And now you fly again, I couldn't fly like you
And now I'm losing you
