Oh, I know you well
All your life I've watched you breathe
I've watched you lie across the seam
Through space and time
Through every year of every kind

I'd wait like snow on the eve of spring
I can out last cold, can you out last me?
Every word you say is a perfect thing
It's the perfect time for that perfect love

And you, oh, you're all I desire
And you, oh, this clever love won't tire

Oh, I've felt your spell
And all alike, it's been like hell
Every single time the cycle goes
In an hour mind, in an hour of fear
Of getting left behind

I see your glow, your eyes are kind
They kill as well, I bare in mind
Every word I say is a silent thing
And a solemn wish, will you lay with me?

And you, oh, you're all I desire
And you, oh, this clever love won't tire
And you, oh, you're all I desire
And you, oh, our clever love caught fire

And you, oh, you're all I desire
And you, oh, this clever love won't tire
And you, oh, you're all I desire
And you, oh, this clever love won't tire

And you, oh, you're all I desire
And you, oh, our clever love caught fire

You're all that I want, you're that I need
You're my everything
You're all that I want, you're that I need
