And you look real close  
Cross the lines and the roads  
It is there to decode  
What you thought was a ghost  
Or a spark to explode  
Its the start of the show  
Its the part you love the most  
When your heart will implode within

Do you believe in hallucinations, silly dreams or  
imaginations  
Don't go away cause I feel you this time  
Don't go away cause I need you there this time

As the rain floats home  
Carry us back to shore  
And up the mountainous coast  
Where the sun starts to glow  
From our head to our toes  
To the stars that we know  
And with you as my host  
It will keep us afloat again

Do you believe in hallucinations, silly dreams or  
imaginations  
Don't go away cause I feel you this time  
Don't go away cause I need you there this time  
Do you believe in hallucinations, any dream or its  
revelation  
Don't go away cause I need you there this time  
Don't go away cause I'm making you all mine

The silence is taxing  
I'm waiting for something  
There's images of love and war  
and everything's here to explore  
It's all alike, unusual, a different place  
but beautiful and it is not quite as it seems  
I hear the children's laughs and screams

It's beautiful  
So beautiful

It's beautiful

Do you believe in hallucinations, silly dreams or  
imaginations

Don't go away cause I feel you this time

Don't go away cause I need you there this time

Do you believe in hallucinations, any dream or its  
revelation

Don't go away cause I need you there this time

Don't go away cause i'm making you all mine
