With an urgent, careful stare  
I see panic in those eyes  
If I see you lying there  
Hoping this was the last time

If you hear a distant sound  
And some footsteps by your side  
When the world comes crashing down  
I will find you if you hide

And if you wish it, wish it now  
If you wish it, wish it loud  
If you want it, say it now  
If you want it, say it loud

We all make mistakes  
Here's your lifeline  
If you want, I want too  
We all make mistakes  
Here's your lifeline  
If you want, I want too

There's a field near the dream  
I watched it grow with brightest eye  
I watched us all reach out and leave  
For the strength that touched the sky

If you hear a distant sound  
And some footsteps by your side  
If you feel like coming ?round  
I will take you for a ride

And if you wish it, wish it now  
If you wish it, wish it loud  
If you want it, say it now  
If you want it, say it loud

We all make mistakes  
Here's your lifeline  
If you want, I want too  
We all make mistakes  
Here's your lifeline

If you want, I want too

If you want, I want too

If you want, I want too

If you want, I want too

If you want, I want too

If you want, I want too

If you want, I want too

If you want, I want too

If you want, I want too
